

## 4.5-meter Car Turntable Specification

Model: ZX4500C-W330

### Turntable Details:

Diameter:	4,500 mm
Height:	330 mm (include 75mm height angle steel on edge)
Load Capability:	6,000 kg
Rotation Speed:	0.2 ~ 1.0 RPM
Speed Control:	Various speed control
Motor Power:	1.1 kW
Top Surface:	4mm thick diamond tread steel plate+75mm height angle steel edge
Installation Weight:	1,628 kg
Turntable foundation:	Concrete pit
Uniformly distributed load:	4.8 kPa

### Design and Construction:

The design of turntable includes:

Structure:	Fan-shaped Structure frame combined
Center bearing, Motor drive, Support Wheels:	Fixed to the ground
Drive Method:	Weizhong Patent Pin-Gear Drive System
Surface Treatment:	Hot-dipped galvanized

### Control System Information:

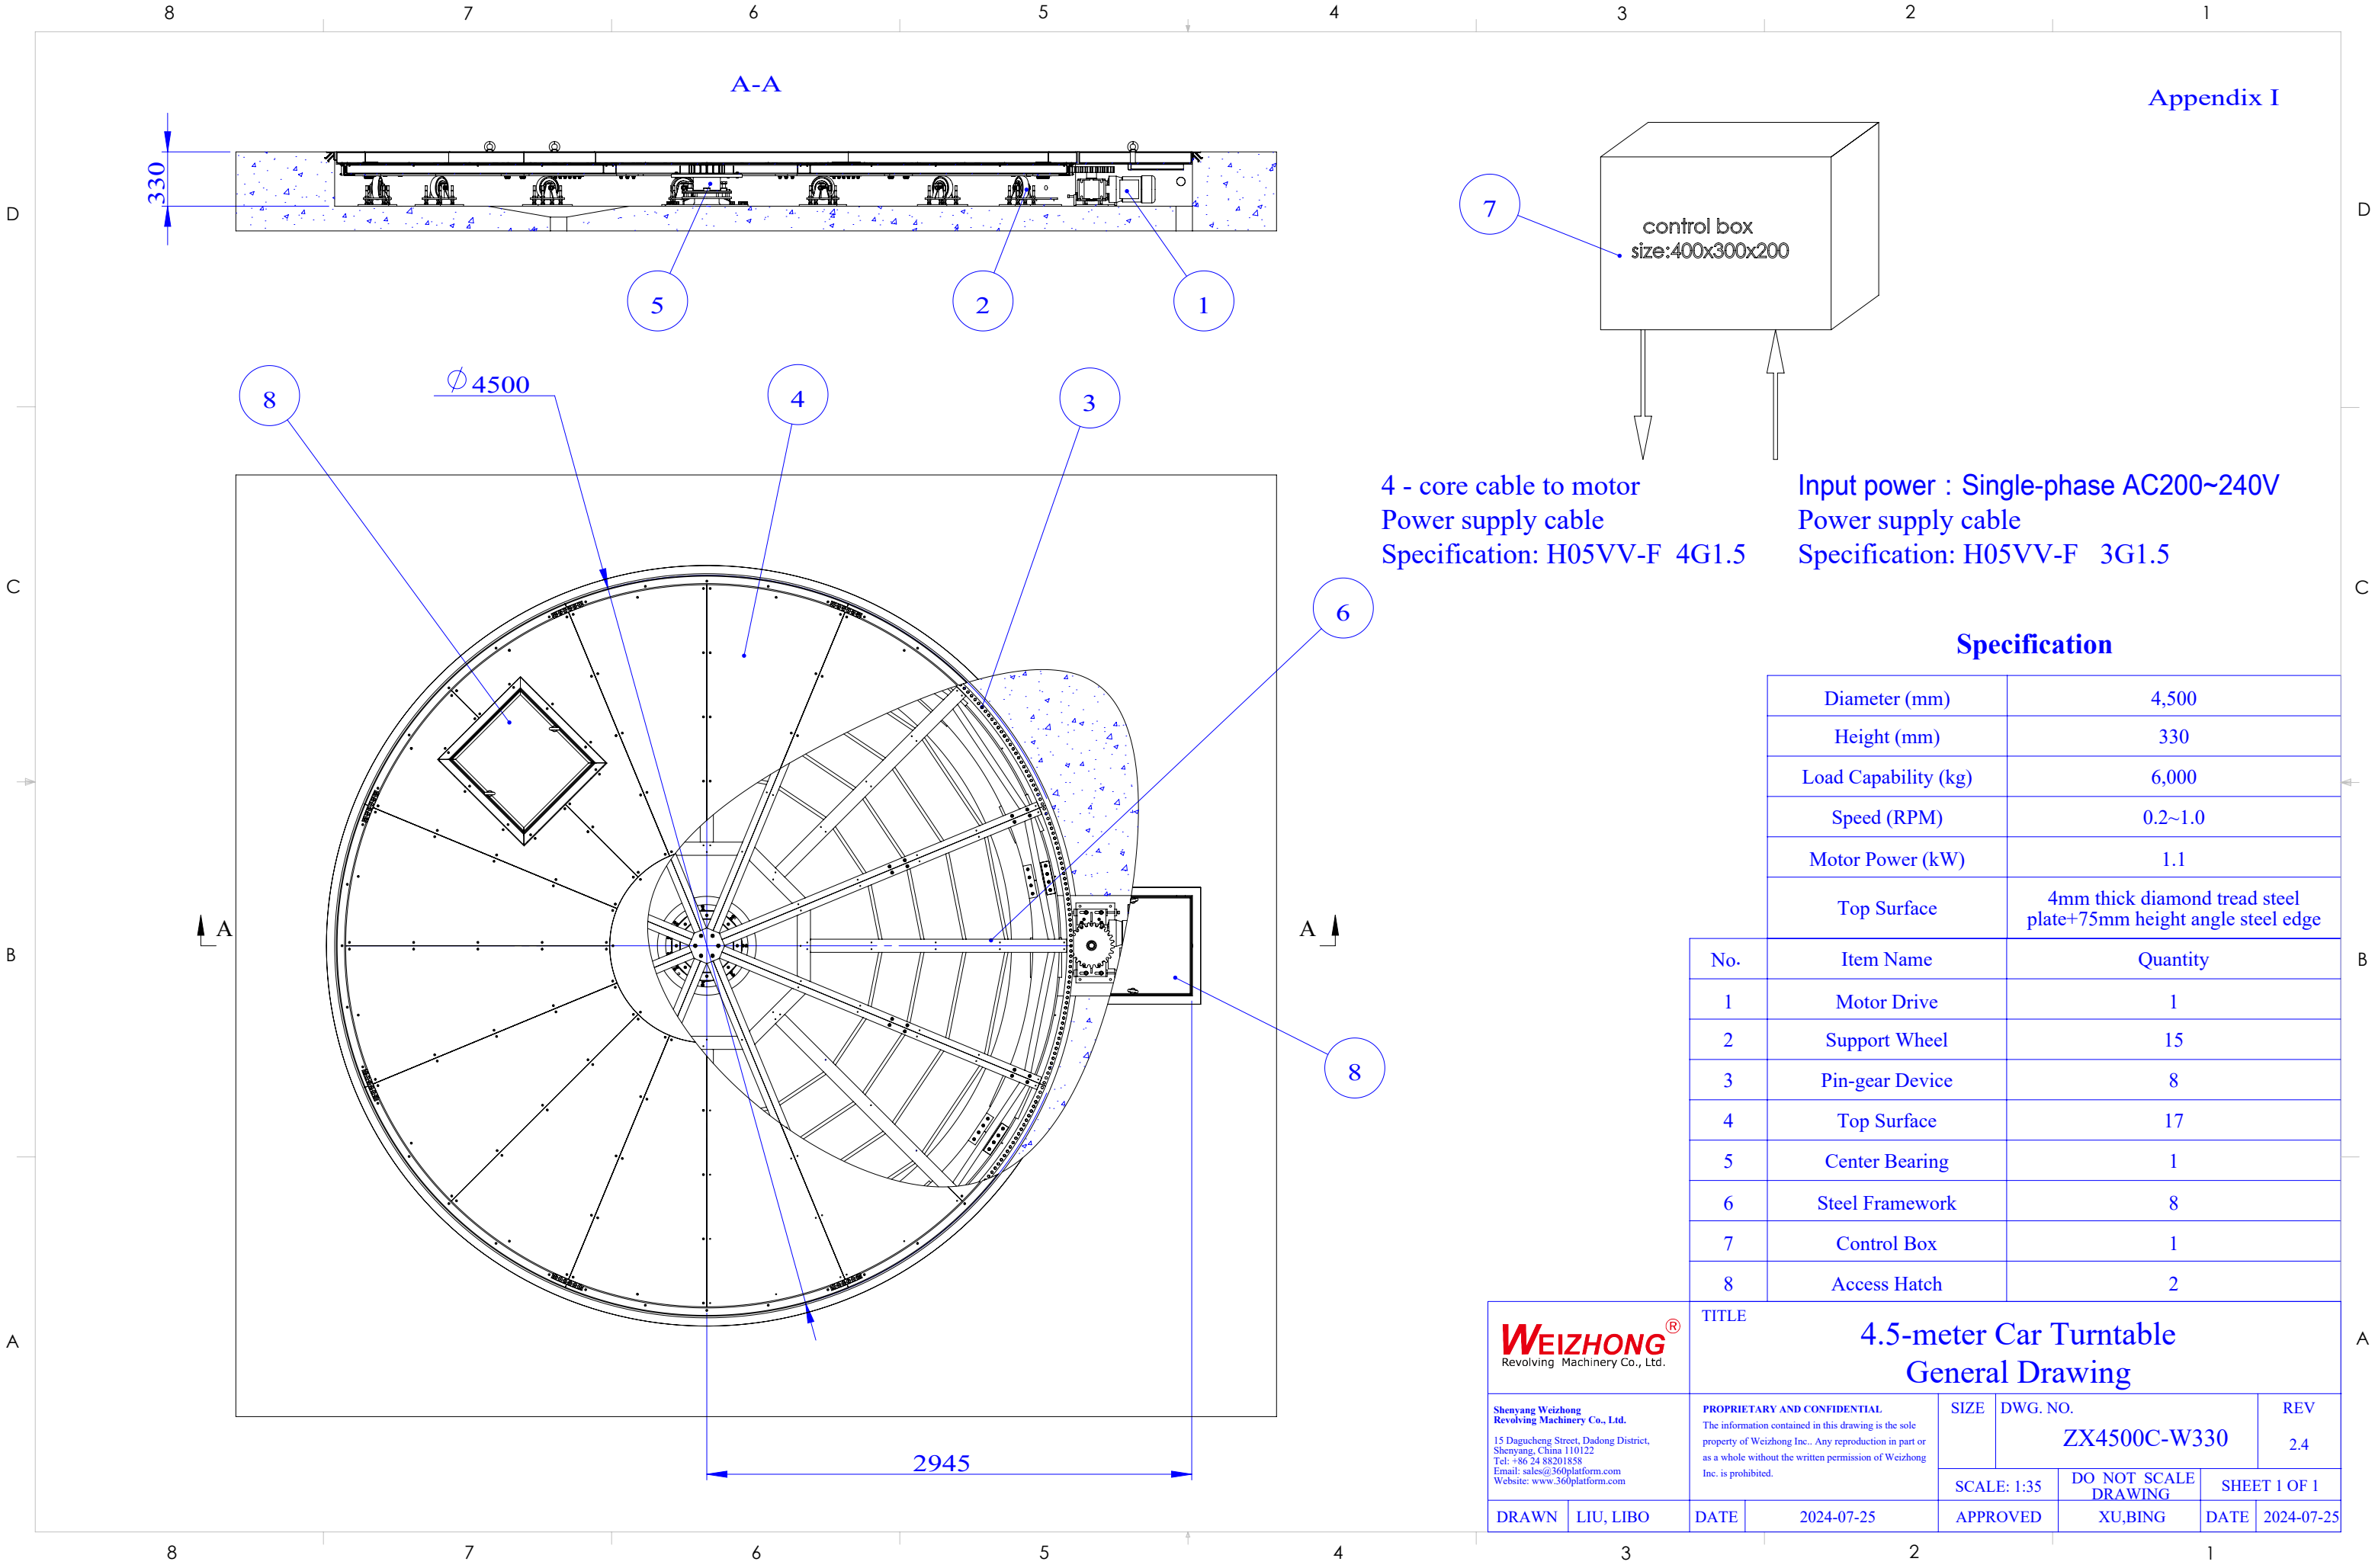

Function:	On/Off, clockwise/anti-clockwise, various speed control, emergency stop
Power Required:	Single phase 200~240V AC,50Hz/60Hz; Max current: 10A
Control Box:	Fixed installation
Remote Control:	Optional

### General Information:

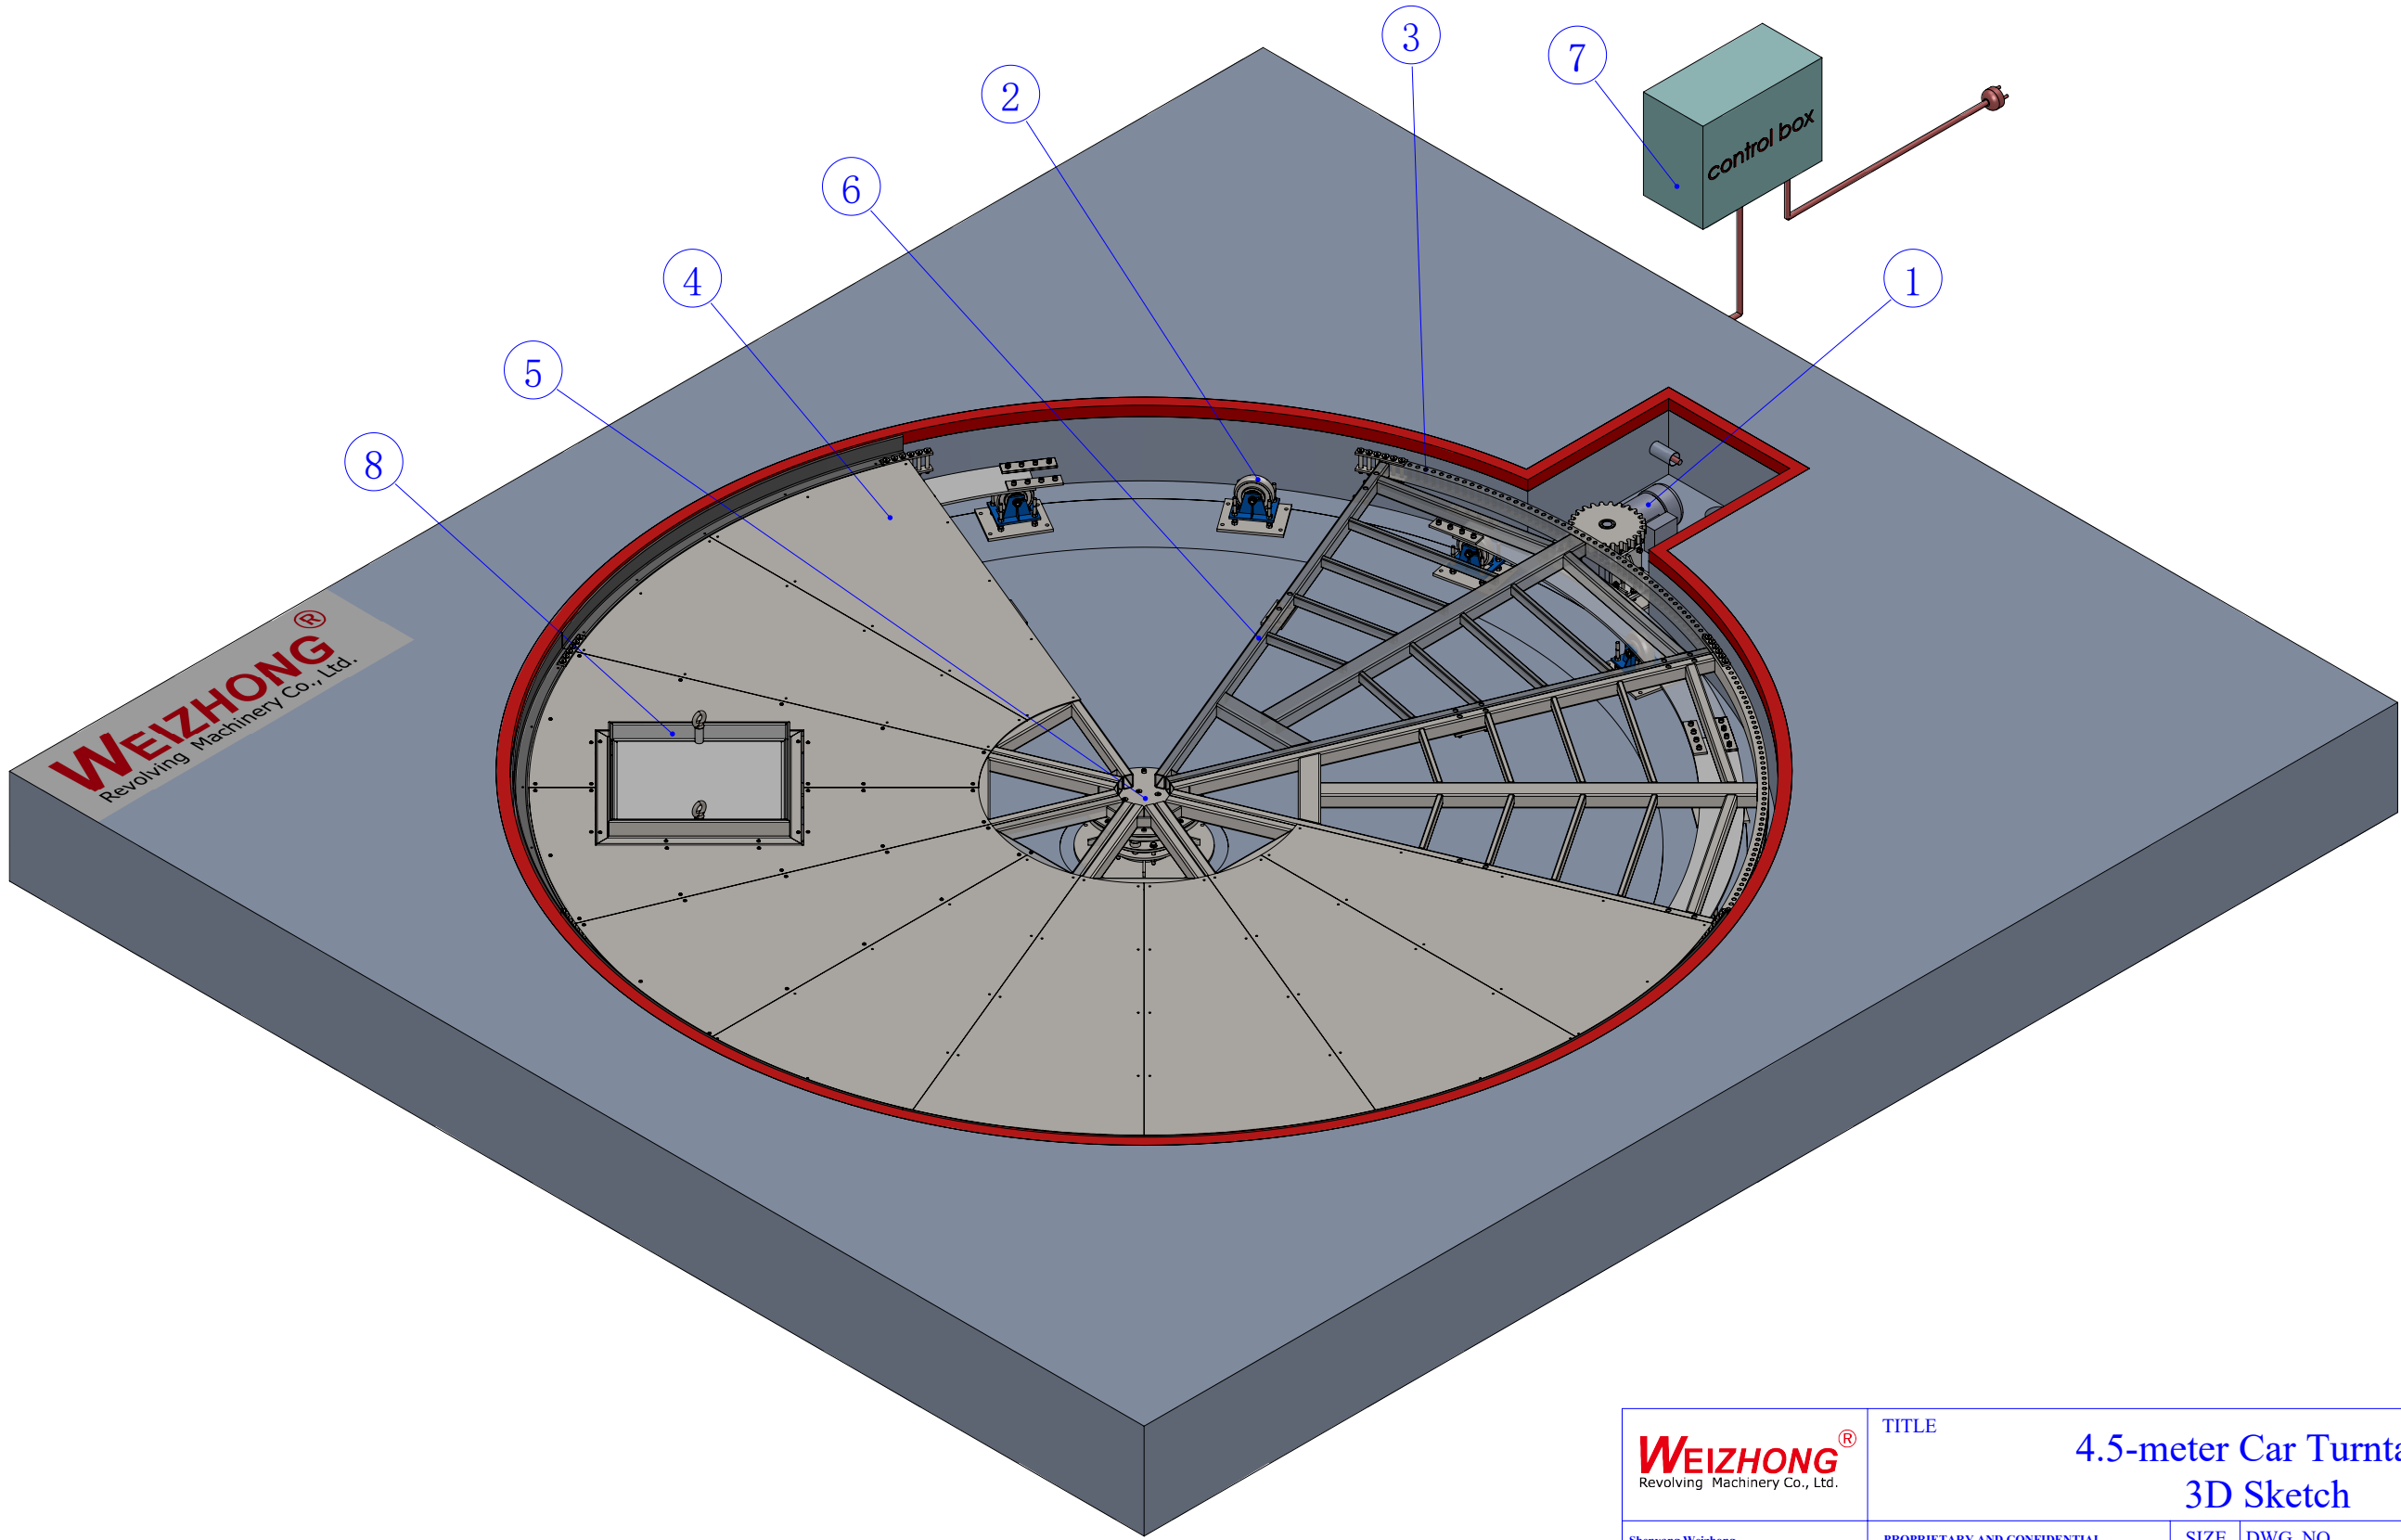

General Drawing:	Appendix I
3D Sketch:	Appendix II
Pit Drawing:	Appendix III

### Note:

The unit of length used in all drawings is metric millimeter
